## DRUMFORMING

 **DrumForming**<sup>®</sup>  
S A N I - G R O U P . C O M

**Drum Forming<sup>™</sup>** is your specialist for the formation of your fluff pad, focusing on high precision core profile, high accuracy of the pad weight distribution, by improving performance meanwhile reducing drastically raw material consumption cost and environmental impact.

Our forming drums are widely used in the disposable industries to manufacture the cellulose FLUFF pad for baby diapers, adult incontinence, feminine hygiene sanitary napkins, panty shields (liners), underpads, meat pads, etc...

As latest improvements, we count in our supplies complete drum forming units for Ultra-Thin pads, for High Density SAP cores and for Super-Compressed cores, involved in the production of baby & adult diapers, underpads and sanitary napkins.

## **DRUMFORMING Service**

**DrumForming**<sup>®</sup>  
S A N I - G R O U P . C O M

→ Our drums forming have a rigid design that allows stable forming surface, minimizing run out and improved edge definition with a 98% open area.

→ Our quality gives many benefits and cost savings by Improving the core weight standard deviation resulting in SAP and fluff material savings, by reducing SAP and fluff entering into the filtration unit due to superior filtering of micro-porous screen, by reducing material consumption and costs.

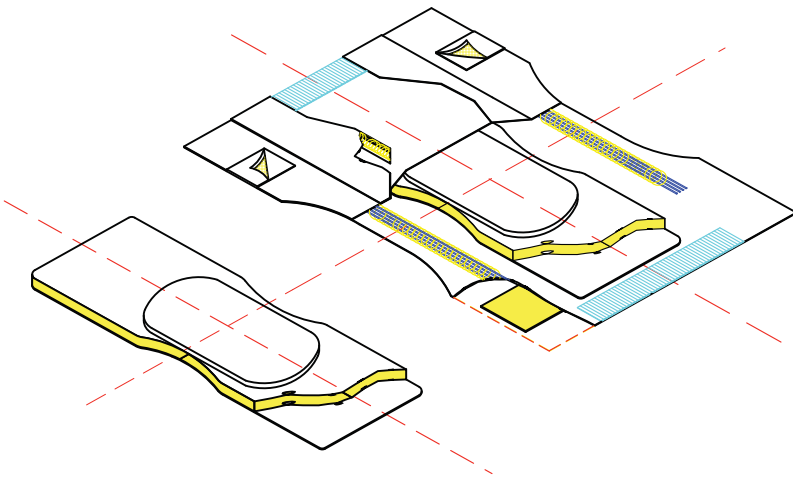

→ We can as well convert double drum forming systems to single drum 3-D systems, optimized core, customized solution based on target core specifications, upgrade older equipment to produce 3 dimensional pad cores with Integration with current equipment.
